

# Nix Device Recertification

Complete, download, print and pack this form in your shipment package alongside your Nix device, white ceramic calibration tile\*, and pelican case.

\*It is crucial that your white calibration tile be included in your package.

## Please complete the form below

**Order #:** \_\_\_\_\_

(found in your order confirmation that was emailed to you, after purchase)

**Address** (recertified device will be sent here):

---

---

---

---

---

---

After Nix has **received** your unit, you should expect the recertification process to complete in 7 business days. Once complete, Nix will send the unit back to the return address provided above.

*Customer to pay shipping costs for getting the unit to the Nix headquarters. In rare occurrences, it may take longer than 7 business days to complete recertification. For any questions, please reach out to [info@nixsensor.com](mailto:info@nixsensor.com)*

*Thank you for choosing Nix for your color measurement needs, we'll get you back to collecting color data as soon as possible!*
